# "SWEET MARIE' RIPS What Right Has a Woman to Be Jealous? Is She Justified in Spying on Husband?

SIDEWALK TALK "Jealousy is Egotism. It is Nonsense to Say that it is a Sign of Love."—Margaret Cameron.

Sixth Article of a Series

The Meaning of Love Is Giving, Not Getting," Asserts Margaret Cameron, Novelist, Who Adds: "The Jealous Woman Lets Her Thoughts Dwell on Grasping, Holding, Keeping Something or Somebody That She Conceives to Belong to Her."

'If a Woman Loves a Man She Wants Him to Be Happy; Even If She Finds that He Prefers Some One Else She Still Must Want Him to Ве Нарру."

By Marguerite Mooers Marshall.

What right has a woman to be jealous? "The right of her love," some will cry. But if there is one law of love which seems to be unalterably clear and definite, it is that the true

lover must shun jealousy as the unforgivable sin. Most of us are such daubers in the art of loving! And when, in our stupidity, we have splashed our love-canvases with the paint of greed and treachery and malice, spotling the pure outline and obscuring

the radiant color, we insist that the insult is a true capression of the most golden and beneficent dream a man and woman can know.

"Isn't it in such a situation that one may discern the actual selfishness of so-called unselfish women?" I suggested. "A wife of this type will do anything for her husband—except let him be happy in his own way."

except let him be happy in his own way."

"Alleged devotion is often nothing but dominance," agreed Mrs. Lewis. "The ideal marriage is a fellowship in which each partner does his or her best to develop the individuality of the other. And one of the commonest causes of failure in marriage is the attempt of either husband or wife to trespass on the others individuality."

"Then you don't think the common jealous tricks are ever justifiable? You do not believe that a woman has a right to open her husband's letters or catechise him or spy on him with a dictograph?" I asked, hopefully. The revelation of the tactics employed by Mrs. Edwin Carman, now held on a murder charge in Freeport, L. I., makes one look for encouragement in one's faith that women will some day acquire a real sense of honor.

busy to think of other things. When I hear that a man has taken his stenogarpher out to lunch I always begin to wonder a little. It's in the hours of ease that temptation comes.

"That is why I would prescribe work for the woman who is tempted to be jealous. The great trouble with the woman of today is that she hasn't enough real work to do. She fuses about and does a great many things, but she has no creative effort which absorbs all her activity. Men have taken her old work out of the home, andshave set up for her the ideal of leisure. "Then you don't agree with Miss Maria Thompson Daviess that the husband of to-day is jealoue of his wife's work?"

"I know some husbands who aren't," Mrs. Lewis responded promptly. "Here and there a man may be found who is jealous of his wife's profession, and who is likewise jealous of her children. They're hi children too, but that makes no difference. He is simply a survival of the harem keeper temperament.

"If we are ever to do away with jealousy we shall need to have genuine creative work, for women as well as men, and we shall need to cuitivate a higher ideal of loving. In short, we require civilization. For House in the West Farms police court, charged with attempted robbery. They
